AARP TAX SERVICE NOTICE

As of March 18, the AARP tax service CAN NO LONGER accept income tax documents for return preparation UNLESS you have been given a previous appointment time arranged by phone or email. If so, your name will be checked against a list of appointments and your information will be accepted.

The tax process is significantly more time consuming this year due to COVID restrictions as determined by AARP National tax organization. Also, we have less volunteers this year due to COVID concerns.

Property Tax Credit returns will continue to be accepted at this time.

Hopefully next year will see a return of normal processes and we will be able to serve all taxpayers.
